My name is Ogunsola toluwalase and I'm a self taught Detail-oriented, organized and meticulous front-end developer who is also an enthusiastic team player ready to contribute to your company's success.

In me you get a Tech-savvy Web Developer that contributes specialty in marketing, social media management and audio/video integration to launch custom-tailored code for website presence. I also possess Detailed understanding of complex, up-to-date programming languages and considerations and offer Innovative approach to actualizing organizational marketing plans. Resourceful navigation of intricate factors governing web planning, security, SEO and launch.

I'm an ambitious frontend-developer who brings enthusiasm and detailed understanding of various programming languages to webpage planning, development and maintenance. Experience designing and developing sites from concept to roll out. Foundational grasp of various CSS and HTML options, development platforms and security requirements.

Resourceful Web Developer lends hands-on approach to customizing web presence strategy. I posses more than 3 years of experience working to outline organizational needs and translate them into extensive lines of code that support objectives. I possess technical skills such as adept creation of scripts using HTML, CSS and vanilla JavaScript as well as libraries such as React and frameworks such as NextJS to convey unique branding and promote sales and marketing opportunities

. I have Specialty in supporting intricate backend needs and lending assistance throughout webpage lifecycle.

I have a very detail-oriented approach to maintaining website responsiveness, effectiveness and security.

Goal-oriented Web Developer brings strong commitment to collaboration and solutions-oriented problem-solving. Using various web design packages to develop custom-crafted, customer-focused websites and designs.
